## SHE CARRIES TROOPS

Cruiser Monocacy Also Ordered to Join Kempff With a Body of Marines.

## THE BOXERS CONTINUE ACTIVE

Washington, June 9.—[Special Telegram]—Admiral Remy cables that the gunboat Nashville has left Cavite for Taku, having on board a body of marines. The cruiser Monocacy at Shanghai, has been ordered to join Kempff with a body of marines. The battleships Massachusetts and Indiana arrived this morning and are being coaled, preparatory to joining Farquhar's squadron at Newport, which may later be ordered to Chinese waters.

### Chinese Converts Murdered

Peking, June 8 (via Shanghai, June 9).—[Special Telegram]—Nine native converts were murdered by Boxers at Feng-Tai last night and eleven at Huang-Tsun.

At noon today Edwin H. Conger, the American minister, received an urgent message from Tung Chow, thirteen miles south of Peking, begging him to send a guard of marines to rescue the American children and women there, as the tactics has informed the missionaries that, although he has 340 Nicks at his disposal, the soldiers are insubordinate and unwilling to protect the hated foreigners from the Boxers.

The American board's large college compound at Tung-Chow is in great danger.

## BOTH SIDES CLAIM A VICTORY

Big Battle Fought Between Boxers and Chinese Troops

Tien-Tsin, June 9.—A report has just arrived here that Gen. Nich-Si-Chong is engaged in a severe battle with the Boxers. His troops had killed twenty Boxers and had themselves lost two killed and eleven wounded.

The Russian Ironclad Sivoutch has arrived at Taku. All reports concur in stating that the Chinese soldiers appear to be dealing half-heartedly with the rebellion. It is considered that the time for action by the powers has arrived.

The British re-enforcements did not start for Peking, as expected, owing to the refusal of the authorities to allow them to entrain, although the British offered to repair the lines as they went.

Additional Russian and Austrian troops have arrived at Tien-Tsin. Yokohama, June 9.—The newspapers here deplore the deadlock in the cabinet in view of the critical situation in China.

It is believed here that Marquis Ito will refuse to accept the leadership of the liberals, and that, therefore, the Marquis Yamagata will remain premier until the diet opens in November next.

London, June 9.—A dispatch to the Standard from Berlin says that the German gunboat Ilitis has ascended the Pei-Ho to Tien-Tsin, where there is a large German colony.

Tsin-Tau, June 9.—The small German cruiser Gefion has sailed hence for Taku with a guard of one lieutenant and twenty-five marines destined for Tien-Tsin.

Gibraltar, June 9.—The British warship Goliath has started for China.

## HAVE NO LOVE FOR CHIEF BLACK HAWK

Hisses Given to Hamlin Garland at La Crosse For Praising the Bloody Indian.

La Crosse, Wis., June 9.—During the speechmaking program at the La Crosse county old settlers' reunion at West Salem Hamlin Garland, the author, novelist and lecturer, declared the Indians in the Black Hawk war entirely right and the whites entirely wrong. He said the name of Black Hawk should ever be revered and remembered. He was greeted by hisses from hundreds, who gave a tremendous demonstration of disapproval. Judge Bradley replied vigorously and was cheered for several minutes. Mr. Garland left in disgust.

Supt. of Poor S. B. Kenyon was in Edgerton today where he was called to remove to the Rock county farm Frank Bemuth. The unfortunate man, an employee of the brick yard, fell from the top of a kiln Monday noon, something over 20 feet, sustaining a fractured hip which will lay him up for some time. He is about 30 years of age and his home is at Racine. He was sent into the roof to remove the covering from a kiln just started and told to brace the pole that carried the roof before doing it which he neglected to do, and it broke under him.

The trouble was one involving finances and was wholly confined with the two proprietors. Officer Sam Brown, who was in charge of the store has turned the place over to the original owners they having announced that they had adjusted matters in a satisfactory way.

## GEN. WHEELER MAY BE SENT TO CHINA

Ordered By President McKinley to Hold Himself In Readiness For Active Service.

Washington, June 9.—[Special Telegram]—For a week the story has passed current that Gen. Wheeler will be immediately added to the retired list. Today President McKinley ordered Wheeler to hold himself ready for active service. Several days ago Wheeler informed a friend that he would probably see service in China. The statement, followed so closely by the instructions given by the president today, is regarded as highly suggestive of military plans being made by the administration to meet a possible emergency. Several dispatches from Man-Arthur within a few days which have been suppressed are supposed to bear upon the number of troops he could spare for service in China.

## MINERS LOSE THEIR LIVES.

Gas Explosion Occurs and They Are Suffocated.

Glouster, O., June 9.—A gas explosion occurred at mine No. 2 at 7 a. m. At this hour no fatalities are reported, but fifteen to twenty-five men are still imprisoned.

Shortly after 7 o'clock, when the mine was filling up with workers who had descended by means of the cage of No. 2 shaft, an explosion of gas occurred which broke the timbers of the mine in every direction. The air fans were disarranged and it was some time before any progress was made toward opening the way for the rescue of the imprisoned men. Five Boss Joseph went down through shaft No. 6, which connected with the one where the explosion occurred. He made his way through a connecting gangway, and it is supposed was overcome by the afterdamp which followed the explosion and was unable to make his way back to the fresh air.

Rescue parties were immediately organized and followed the way taken by the fire boss. They found a party of eight men near the connecting gangway and carried them to the fresh air, not a moment too soon, for all were almost suffocated by the fumes of the deadly afterdamp. The work of rescue continued for several hours and by noon it was believed that all the imprisoned men had been released but about twenty.

It is practically certain that many of the miners are dead, for the deadly gas known as afterdamp, which follows all explosions in mine workings, had gathered in large quantities.

Over a hundred panic stricken miners were found lying flat on their faces in an effort to get the only pure air in that part of the workings. They were loaded on the cages and carried to the surface. Several times the cage descended, bringing on each return its load of smoke begripped men.

It is supposed that the explosion was caused by an electric spark from one of the ventilating fans, touching off a pocket of gas which had gathered during the night.

The following are reported dead: Even Joseph, fire boss; John McLeeland, miner; Aron Swanson, miner; John Evans, miner.

### Wisconsin Freshmen Winners.

Madison, Wis., June 9.—The Wisconsin freshmen won the boat race from St. John's Military Academy last evening by eight boat lengths, the winning crew finishing in 7:50 over a course a little short of a mile in length on Lake Monona. The freshmen led all the way from start to finish.

### Lawrence Wins From Beloit.

Appleton, Wis., June 9.—The annual field day between Lawrence University and Beloit College held here yesterday, was won by Lawrence, whose team scored 64 to Beloit's 7 in the regular programme of college field and track sports.

## WILL ASK BRYAN TO SHELVE SILVER

CHAIRMAN JONES TO CONSULT NEBRASKAN IN CHICAGO

His Consent Is Expected—Party Unity Sought—Hands of Hill and Gorman Seen in the Decision Reached by Prominent Leaders in the Democracy.

Washington, June 9.—Mr. Bryan is to be asked to give his consent to a conservative platform at Kansas City—in other words, to drop 16 to 1 free coinage as an issue in the coming campaign. This request is to be made by none other than senator Jones of Arkansas, chairman of the democratic national committee, speaking not only for himself but for hundreds of prominent democrats throughout the country, including nearly all of the democratic senators, many democratic representatives, well known state leaders in every section of the country, and last, but not least, the eastern democratic organizations represented by ex-Senators Hill and Gorman. This is the sensational news of the day in the political world.

It probably means that Mr. Bryan will yield to his party supporters and consent not only to the adoption of a moderate platform at Kansas City but to subordination of the silver issue in the campaign.

### Jones to Confer With Bryan.

Senator Jones leaves Washington tomorrow for Chicago, and in the latter city will meet Mr. Bryan and hold a conference with him. Mr. Jones told some of his colleagues today that he expected to succeed in his mission.

During the last week democratic senators have carried on a series of political conferences in the cloak rooms. They have also been in correspondence with the leading party men in their respective states. They have secured hundreds of expressions of opinion, and all these Senator Jones is prepared to lay before Mr. Bryan at Chicago.

Senator Jones will not ask Mr. Bryan to abandon the Chicago platform nor any principle contained in it. He will not ask Mr. Bryan to stultify himself nor to do anything contrary to the rules of good faith, sincerity and self respect. But he does contend that the reaffirmation of the Chicago platform can be put in language which will not alarm the country and which will permit the democratic party to reunite.

## FISCHER GREETED AT MILWAUKEE

A Rousing Boer Meeting is Scheduled For the Cream City This Evening.

Milwaukee, June 9.—Abraham Fischer the Boer agent, arrived here last evening from St. Paul accompanied by his wife and secretary. He was met at the depot by a citizens' committee, consisting of Mayor Ross, ex-Governor George W. Peck, ex-Senator Yahr, Alderman Graebner and James L. O'Connor, a committee from the Wisconsin Transvaal Association, and another from the German societies.

It may have been of no significance, but the fact remains that the citizens' committee happened to be all democrats.

Mr. Fischer was escorted to the Plankinton House, where after dinner he was met informally by a number of people. Tonight he will speak in the exposition building.

## DEWEY THEIR LEADER

Indiana Gold Democrats for Him for President if Their Party Puts Up National Ticket.

Indianapolis, June 9.—The Indiana gold democrats have renewed the talk of nominating Admiral Dewey for the presidency if the party determines, as now seems likely, to hold a national convention. It is being whispered among them that the name of the hero of Manila was informally discussed at the meeting of the executive committee in New York, from which National Secretary John P. Frenzel has just returned.

### Dewey in Detroit.

Detroit, June 9.—The flags and bunting which decorated public and private buildings and many residences in honor of the visit of Admiral Dewey were rendered lifeless by a cold, steady rain, which fell intermittently through the morning.

The day was spent in quietly resting and visiting with friends of the Deweys. This evening an elaborate reception and dinner was given at the Peilowcraft club. Mrs. Dewey was dined by ladies of Detroit at the Detroit club.

### Father and Son Are Drowned.

Pittsburg, Pa., June 9.—While fishing from a boat in the Ohio river near Economy, W. H. Breitenstein, aged 45, and his son George, aged 11 years, were drowned yesterday. It is believed the son fell overboard and the father, attempting to rescue him, became entangled in the fishing tackle, rendering his efforts futile. The bodies were recovered.

Mr. JOHN WELLS BURR of New York, is visiting with Frank Pember and Mrs. James Mills, his cousins.

## CROP OUTLOOK HAS BECOME ALARMING

LOSSES TO WHEAT IN CENTRAL WEST AND NORTHWEST

Large Wheat Producing Sections Will This Year Be a Total Failure, While in Others the Average Is Deteriorating—The Situation Is Serious.

Chicago, Ill., June 9.—Wheat prices in five days have advanced more than 6 cents a bushel. From a complacent confidence in a great spring wheat yield of 250,000,000 bushels at least, the Northwestern grain people have suddenly shown trepidation lest a large proportion of the yield be lost. The advance in price and the alarm over the crop outcome have both developed within less than a week.

The whole country is now interested in the outcome. Sensational losses were suffered in Ohio, Michigan, Indiana and Illinois last fall from insects. In those four states the promise was reduced 50,000,000 bushels before the winter had started. It was taken without great excitement because there was a great prospect west of the Mississippi, and because it was taken for granted the losses in winter wheat would be an incentive for a bigger harvest in the Northwest.

The losses east of the Mississippi river have been irreparable. This makes a possible loss in the Northwest the more serious to the whole country, to merchants and railroads most directly.

The failure in Ohio, Michigan and Indiana is the most complete in a quarter of a century, due almost entirely to the presence of the Hessian fly in numbers without a parallel.

This condition was pointed out last December and the present situation accurately forecasted. The loss of acreage due to plowing up or abandonment in some of the worst afflicted states is little short of appalling, removing states of important production from the surplus to the deficiency class.

## BOERS OPERATE IN ROBERT'S REAR

Telegraph Communication With Pretoria Is Completely Cut Off—Have a Strong Force.

London, June 9.—[Special Cablegram]—The Boers have cut off Roberts' telegraph communication with Kroonstadt. The news comes from the general in command of communications at Cape Town. He says: "Kelly-Kenny, at Bloemfontein reports that the telegraph line has been cut at Roodvale north of Kroonstadt. The Boers are estimated to have two thousand men and six guns. Kenny is sending strong reinforcements to Kroonstadt and is reinforcing from Cape Colony. Hope the interruption is only temporary."

Paris, June 9.—[Special Cablegram]—The Transvaal section of the exposition opened today. The papers point to this fact as proof that the Boers are determined to fight to the death.

Cape Town, June 9.—[Special Cablegram]—Baden-Powell is expected to arrive today. The opinion here is that the Boers haven't sufficient ammunition for a resistance longer than eight weeks at Lydenburg.

### Lay Off 1,500 at McCormick's.

Chicago, June 9.—Fifteen hundred of the 5,000 workmen employed by the McCormick Harvesting company have been discharged. Other lay-offs affecting many of the departments in the big manufacturing plant will be made and it is predicted that one-half of the force will be idle within ten days or a fortnight.

Officers of the company say that the cut in the force will not be proportionately greater than the contemplated reduction by the other harvesting companies. The Deering Harvester company has let off about 1,000 men during the last two months, reductions having been made gradually. Until the middle of July the company intends to continue a policy of shortening forces, but expects to go through the summer without closing the plant, even temporarily.

### Women Take Up the Crusade.

South Bend, Ind., June 9.—The women of the South Bend Progress club have begun a movement to stop indiscriminate expropriation in this city. They have ordered a large number of signs, conspicuously lettered, and requesting people not to spit upon the sidewalks, and are arranging for their liberal display on corners habituated by the indiscriminate spitter. The leading women of South Bend belong to the club.

### Pug as Engagement Gift.

Cincinnati, Ohio, June 9.—A pug dog was the unique engagement gift of Margaret Harrison of East Walnut Hills. When her troth was plighted to Howard Childs of Boston she told him she would rather have a pug dog than a "solitaire." He was agreeable, and soon there arrived at the Harrison home the most valuable pug dog he could obtain. The pug accompanies the couple on their bridal trip.

## LAST OF VISITORS DEPART

Mayors All Said They Had a Good Time Here.

This afternoon the last of visitors in attendance at the session of the League of Wisconsin Municipalities took their departure for their homes. The program closed last evening when the visitors returned by boat from Crystal Springs where a banquet was in order. The banquet was in charge of Mrs. Louise Bowerman who served a repast fit for a king. Colored waiters looked after the one long table which seated about seventy-five. The visitors were highly pleased with their visit to Janesville.

## JANESVILLE GIRL THE BRIDE

Miss Martha Bowman, a former well known Janesville girl, was joined in the holy bonds of matrimony yesterday. The groom is Frank Wheeler, a well known resident of Menominee. The bride went from this city with the Richardson Shoe company when they removed their factory to Menominee. Many local friends will extend best wishes.

## RABID SILVER MEN AIM TO OUST WALL

Likely to be Discovered in Badger Democratic State Convention Which Meets Next Week.

Milwaukee, Wis., June 9.—Ex-Governor Peck, chairman of the Democratic State Central committee, today named J. B. McGillan of Marinette to be temporary chairman of the state convention which will be held next Tuesday to elect delegates to Kansas City. Thomas L. Cleary of Lancaster will be permanent chairman. C. J. Noel of Marinette will act as secretary and J. C. (Iky) Karel, the former football player, as sergeant-at-arms.

The convention will be a Bryan ratification meeting from present indications. The only fight which has materialized is one against the re-election of E. C. Wall as national committeeman. The rabid silver men in the party are determined to oust Wall, but no one either side can give any definite idea of the strength which they have in the convention.

There has been so little interest taken in it that the democratic leaders have not kept a careful eye on the outcome of the county conventions.

### To Hold a Summer Night's Festival.

At a meeting of the Carnival association last night it was definitely decided to hold a summer night's festival at the Deutscher and Calumet grounds Friday night of Carnival week. This now settles all the fixed events for the Carnival.

It was also decided to have a conference with the Milwaukee Press club on arrangements for entertaining the visiting newspaper men of the state.

The carnival board received notice today that the First Regiment of the Illinois brigade, Uniformed Rank, Knights of Pythias, will take part in the carnival day parade in company with a regiment of the Wisconsin brigade.

## THE SESSION ENDS WITH LOVE FEAST

Closing Meeting of Woman's Clubs Biennial At Milwaukee Last Night—Some Happy Addresses.

Milwaukee, June 9.—With a love feast in which all thought of differences or strife were forgotten and in which nothing but that begetting on the welfare of the present and inspiration for the future had a part, the Fifth biennial convention of the General Federation of Women's clubs came to a close last evening at the Alhambra theater, adjournment being taken at 11 o'clock after one of the most interesting and thoroughly enjoyable sessions that has marked the entire week.

Nothing could have been more fitting than the manner in which the notable gathering was brought to an end, for the serious address and the humorous address and the address expressing good fellowship and loyalty to a common cause, combined to leave a parting impression of the most agreeable sort. Beginning as it did with charming addresses by Madame Sofja Louvina Friedland of Moscow, Russia, and Mrs. Robert J. Burdette of Pasadena, Cal., an hour was next devoted to a delightfully informal series of talks on the Fifth Biennial, its faults and virtues; while the closing features, the presentation of newly elected officers and brief addresses by each, and the adoption of the resolutions expressing the convention's appreciation of Milwaukee's efforts as hostess, were no less enjoyable.

### Temperance Congress Due.

London, June 9.—The world's temperance congress opens in London Monday under the presidency of the archbishop of Canterbury, who delivers an address, and who on Thursday will entertain the members of the congress at a garden party at Lambeth Palace. The lord mayor will give a reception to the delegates Friday. A leading feature of the program will be a grand cosmopolitan temperance meeting, over which the earl of Carlisle will preside. Lady Henry Somerset will occupy the chair of the congress Tuesday. The speakers will include many Americans.

## PRESIDENT FEELS VERY CONFIDENT

Mr. McKinley Has no Fear at All About His Re-election.

## THE WEST IS WITH HIM

Significance of Fact That Grosvenor Is Pushing Dolliver for Second Place.

## IOWA MAN'S BOOM GROWING

Washington, June 9.—[Special Telegram]—A member of the cabinet today said McKinley was so confident of re-election that he has no particular concern over the vice presidential nomination. Any one of a dozen of the mentioned candidates would be satisfactory to him, and he is determined not to express any preference.

The confidence of the president is based on the returns from western states, which it is claimed, will be back in the fold of republicanism with the possible exception of Colorado, Utah and Montana.

McKinley will shake hands next week with hundreds of delegates on their way to and from Philadelphia. The White House will be connected with a direct wire to the convention hall, but no one connected with the White House staff will go to Philadelphia.

### Washington Looks Deserted.

Washington is today one of the most deserted cities of the earth. It reminds one of a college town the day after commencement. At the capitol are only a stray congressman here and there and all the drays and wagons of the post-office are removing tons of public documents with which the electorate are to be wooed.

Over the floors of the house and senate and committee rooms are scattered papers and mail matter of every description in utter confusion, and preparations are making for the assault of the scrub women and rubbish scavengers on the halls were party strife so recently prevailed.

### Grosvenor for Dolliver.

There is one live topic, however, today, in political circles—the vice presidency. Every man who went to see the president had something to say on this subject, which shows that the president is busily engaged in sounding the public to find its opinion.

General Grosvenor after seeing McKinley was more emphatic than ever today in advocacy of the nomination of Dolliver. He predicted that the Iowa would be a winner without doubt. The impression which Dolliver's candidacy is making is becoming deeper each day and it was left to the judgment of Washingtonians he would be nominated without opposition.

### Fire in Choate's London Home.

London, June 9.—Fire was discovered about midnight in the residence of United States Ambassador Choate, 1 Carlton House terrace, S. W. The flames were confined to the roof and were easily extinguished. There was some excitement among the members of the ambassador's household, but the firemen soon reassured the inmates. The fire probably originated in an overheated chimney.

## GEN. PIO DEL PILAR HAS BEEN TAKEN

Influential Filipino General Captured Near Manila—Had a Large Following.

Manila, June 9.—Gen. Pio del Pilar, the Filipino leader, has been captured near Manila.

Pio del Pilar, next to Aguinaldo, was considered the most influential Filipino leader of the war. He had a large following. His capture is a fortunate one.

Washington, D. C., June 9.—Perhaps the most thrilling and picturesque incident of the entire Philippine war occurred at Catubig on the island of Samar, where on April 15 last a party of thirty-one enlisted men of Co. M, Forty-third infantry, held at bay a force of 600 insurgents, during four days of fierce fighting, reinforcements arriving just in the nick of time.

## The Liver's Duty.

The liver has two duties to perform—cleanse the blood and produce bile. You may know it is working lazily if you are troubled with constipation, dyspepsia, biliousness and dizziness. It is trying to throw its work upon other organs. Hostetter's Stomach Bitters will stimulate it, make the liver do its duty and thus the stomach, bowels and nervous system to annoy. See that a PRIVATE REVENUE STAMP covers the neck of the bottle.

THIRTY YEARS OF CURES

SERIOUS FIRE WAS  
NARROWLY AVERTED

For a Time it Looked as Though the Hotel Myers Was Doomed for a Dangerous Fire.

What at one time looked like a most serious fire was discovered last evening at 11:30 o'clock in the millinery establishment of the Kennedy sisters at 64 East Milwaukee street. A passing couple noticed sparks dropping from the ceiling of the millinery store. Directly over the store are the private apartments of Landlord Johnson of the Hotel Myers. Mrs. Johnson smelled smoke and notifying her husband an alarm of fire was turned in. The firemen at once located the fire in the ceiling in the millinery store. Several boards were torn down and when these were removed a shower of sparks fell to the floor. The fire extinguishers were used but no water was thrown. An overheated range in the hotel kitchen caused the fire. The fire was discovered just in time to avert what might have proved to be a terrible conflagration. Ten dollars will cover the damage.

## Street Preacher Shot Dead.

Carmel, Ind., June 8.—Thomas Jefferson Johnson, known as "Cyclone," a street preacher, was shot and instantly killed after he had killed Deputy Sheriff Carey, who was trying to arrest him for assault and battery. Johnson had been attacking different persons in his street talks, and those attacks had brought him into several fights. There was much feeling against him. He renewed his attacks, and Carey tried to arrest him, but was shot dead, and an unknown person in the excited crowd shot Johnson. He was born in Jackson county, Kentucky.

This is only a half truth. If wise men had held their tongues, we should know nothing about the circulation of the blood. The sketches afterward became noted and passed through many editions. The "Pickwick Papers" followed and established Dickens' reputation. Besides writing a large number of novels Dickens published a periodical called Household Words, and also a literary weekly, All the Year Round.

## STATE JOURNAL FOR WHITEHEAD.

The Madison State Journal, the official state paper, pays Senator Whitehead a handsome compliment in a double headed leading editorial, saying:

"When the republicans of the first congressional district determined upon putting a candidate for governor into the field they turned unanimously to Senator John M. Whitehead, and having pronounced in his favor are now standing together by him with the expectation and belief that his candidacy will be successful in the nominating convention."

"No candidate has better fitness for the office of governor than Senator Whitehead, and no class of citizens, rich or poor, rural or urban, corporation or workman, could have better guardianship of their interests with him in the executive chair. He is a well-trained lawyer, and, as everyone knows, his two winters in the senate were signal in point of intelligent, courageous and judicial action. Senator Whitehead's connection with tax measures is by no means to be interpreted as antagonistic to capital. The institution of the tax commission, largely his work, is when rightly viewed, a conservative, not a radical policy. The effect of its recommendations, if enacted, will be to more equitably distribute and lighten the burdens of government, not to intensify them; indeed, it is understood that the commission conceives that action looking to restricted outgo of public moneys may be fully as much its function as the mere tapping of more sources of revenue and the equalization of the imposition of present taxes. Corporate taxation, no less than the taxes of individuals, will be lightened, not increased, when within a few years this commission shall have grown into its full usefulness. At all events it heralds the end of sudden, undigested, individual tax projects or to the public needs, and by the very nature of such isolated drives of taxable properties, unjust."

As the Beloit Free Press says: Mr. Whitehead is a man of the people, appreciative of the wants of the people, of that great class who make the wheels of industry go round. Fair and just, he makes no pretense of superior public virtue, but lets his public acts and daily life speak for him. Sympathizing with all interests, he would have justice rendered to all. A man of the people, he is for the highest interests of all the people. Senator Whitehead is a man of dignity, force and wisdom. As governor, the state might well rejoice in such a chieftain, and the stimulus he would give to wise legislation, the check he would afford to trivial and hurtful schemes, the tone he would give the entire gamut of public affairs ramifying into the smallest community, the example he would afford of political ideals to the youth of the state, constitute a vision inspiring to all who covet that Wisconsin shall rank high. Senator Whitehead's chances for nomination are most excellent, and his friends have reason to press onward with all diligence. His campaign methods are scrupulously just and honorable. Whether as governor or as state senator (which position his district will readily accord him again) Whitehead of Janesville, will continue to be a most valuable factor in Wisconsin public life."

Rock county democrats are against Committee Wall, and in favor of T. E. Ryan, of Waubesa, as his successor. Of course, Rock county democracy doesn't owe anything to Mr. Wall. He never gave anything to Rock county that he couldn't get.

Janesville has a perfect school system, and unexcelled fire department, an excellent street work equipment, an exceedingly liberal appropriation for lights, and the finest of water works plants, but the poorest city hall, the most unsatisfactory police system, and the least

sewerage of any other similar city in the state. The latter departments should be placed on the high plane of the former without delay. Janesville should not lag behind her sister cities. The time to make hay is while the sun shines. Forward!

Elkhorn Independent.—If John M. Whitehead is defeated in his candidacy for nomination for governor, he will see to it that his friends in Rock county do not seek to "avenge" him, by scratching his successful opponent at the polls in November. He is not vindictive. He will not seek to build himself up by tearing down some other prominent candidate. That is the kind of a man that good republicans admire and love.

Janesville people are rightly proud of a school system that puts fifty-six graduates on the commencement stage, as well as of the class that made such an excellent appearance. Superintendent Mayne and the Board of Education are also entitled to praise, and the citizens of Janesville are to be congratulated on the liberality that makes such splendid school facilities possible.

Governor's Scofield's speech at the meeting of the League of Wisconsin Municipalities won him many compliments. Like all the other speeches, it was to the point, logical, in good taste, and of good sense.

The anti-silver democrats will again place a presidential ticket in the field. The name "democracy" is as empty, to them, as it ever was, and fails to cloak the populism that it represents.

Oregon people evidently believe that their Uncle Samuel is all right, and "they're wid 'im."

Nobody cared to umpire the game between the Women's clubs at Milwaukee.

John Bull hesitates when it comes to entering the China shop.

Not the Fault of Jones.

Smith—You and Jones don't seem to be as friendly as you were. Does he owe you money? Brown—No, not exactly, but he wanted to.—Stray Stories.

Hodgson Is Forced to Yield.

London, June 9.—According to a dispatch to the Daily Mail from Accra, dated June 8, a native rumor is in circulation there that Sir Frederick Mitchell Hodgson, governor of Gold Coast colony, made a sortie from Coomassie, where he had been besieged by the Ashantees, but was forced to retire and ultimately surrender. Mail advices from Accra, dated May 17, say: "Fifty thousand Ashantees are in arms and the insurrection is spreading. It is impossible for white men to go into the interior successfully during the rainy season."

Ancient Ruins in Rhodesia.

Quite recently W. G. Neal returned here from a four-months' sojourn in the Bellingwe district, during which time he has, in conjunction with George Johnson, been engaged in the exploration of some recently discovered ancient ruins. They have discovered and brought in some interesting as well as valuable examples of gold fashioned into a variety of forms, such as gold beads, wire, nails, beaten out sheet, flagstone work, copper, iron, string or covered with gold, etc., which indicate a very fairly advanced stage of civilization, being superior to any thing the Matabele were able to accomplish.

Automobile on Runners.

A new use for the automobile has arisen in the vast Minnesota forests that supply the country with white pine. One of the large lumber companies has been experimenting the past two years with a design for a sled that should propel itself and haul a load over the ice and snow roads of the forests, and it has this winter succeeded in making a sled that goes. It is a locomotive on runners, and the power of the entire engine is applied to two drums, one at each end of the sled.

Preferred Death to Short Hair.

Mrs. Fredricka Blume of Philadelphia, attempted suicide the other day because her hair wouldn't grow. Last December, her hair, which was long and luxurious, began falling out, and by the advice of a specialist, she cut it off. Tonics failed to restore the growth and, ashamed of her shorn head, she drank a mixture of carbolic acid and rough on rates. The poison didn't kill her.

Strength of the Busy Bee.

Observations made to test this question showed that bees can carry with ease twice their weight in honey. Several bees were caught as they returned to their hives laden with honey, and after inclosing them in a little box, they were carefully weighed. When the bees unloaded their honey they were again caught, placed in the same box and weighed a second time. This experiment showed that the bees when laden weighed three times as much as when empty. It was, therefore proved that a bee can carry twice its own weight in honey and can fly very long distances with that weight.

Something Practical.

Many a young girl makes the mistake of thinking that because she would die for a man, she truly loves him. In this restless, throbbing age it is necessary for her to ask herself in all seriousness, "Would I take in washing for him?"—Detroit Journal.

## MAMMOTH TRESTLE TO SOON DISAPPEAR

### PILE DRIVERS REACH MONTE-REY RACE WAY.

Gigantic Undertaking That Forms a Sight Well Worth Seeing—Eight Large Cement Abutments Are to Be Erected at a Large Cost to the Company.

Several gangs of men will soon commence the mammoth task of filling in the long trestle partly completed this week by the Janesville & Southeastern railroad company running from the district known as Snipe Hill south to Rock river.

After several days work the pile driving crews this week reached the Monterey race way with the greatest trestle undertaking ever carried out by a railroad company in this portion of the state. It is now the intention of the company to fill in this trestle with earth taken from Snipe Hill and other locations. The amount of dirt that it will require can be estimated by the thousands of car loads.

The present sight of this mammoth trestle is one that every citizen of Janesville should see. The trestle extends from Snipe Hill crosses both the Atton branch tracks of the Northwestern and the Milwaukee roads. Then it goes across private lands that were recently purchased, crossing Western avenue and the south bringing up at the river.

The work of piling across the river will soon commence. The trestle at some points is forty feet in the air. This week several electric lights were erected on the scene, the intention being to carry on the work at night as well as day. Cement abutments will be constructed where the road crosses the tracks and streets.

The abutments will cost a small fortune and will be eight in number. For their construction it will require a total of about 1500 cars of crushed rock, 500 cars of gravel and 140 cars of cement. When completed these abutments will be like one solid mass of rock. Near the Western avenue arch the railroad company have erected special buildings that are temporary.

A complete cement mixing plant is also in operation on the scene. One hundred and fifty men are at present employed on the trestle and vicinity by the company.

## MOTHER PARTED FROM CHILDREN

### POVERTY BROUGHT ABOUT SAD HAPPENING.

Mrs. Johnson Asked That Her Loved Ones Be Sent to Sparta Because She Was Unable to Care for Them—Sad Scene in the County Court Yesterday.

Unable to properly provide for her children owing to the recent death of her husband, Mrs. Sorena Johnson of this city appeared before Judge J. W. Sale yesterday and made application that her two boys be sent to the state school for boys at Sparta.

With her eyes filled with tears Mrs. Johnson related a pitiful tale that made many of those present weep. Mrs. Johnson has been making her home on South River street at the former Kirk homestead. She is the mother of a family of children and since the recent death of her husband she has had a most difficult time in keeping from actual want.

Two members of the little family are bright eyed boys aged ten and eleven years. Their names are Martin and Willie. Accompanied by these two boys Mrs. Johnson appeared in court. The boys well understood all the circumstances and both were crying. They were strongly opposed to going to Sparta.

Mrs. Johnson was informed that if the boys were placed in homes by the Sparta authorities she could not again claim her loved ones. The scene was a sad one. It is expected that the two boys will be taken to Sparta next week by Officer Keanyon.

## CONE ENTERED PLEA OF GUILTY

Arrest of the House Mover Will Probably Result in the City Appointing New Official.

Elbert Cone of this city, who was arrested on the charge of moving a vacant dwelling in the public streets without first having secured the consent of the common council, entered a plea of guilty in the municipal court yesterday and was fined a total of \$3.00.

It was on the recommendation of City Attorney Burpee that this light fine was made. Mr. Cone showed that the building that he moved had to be moved without delay as it was located on Snipe Hill in direct line of the new Janesville and Southeastern railroad. It was several days before the council met so Mr. Cone took the responsibility on himself.

Members of the common council will now be asked to appoint some special person in whom may be vested such authority in all like emergency cases. In all probability this officer will be Chief John C. Spencer of the fire department.

## ONE THOUSAND WERE IN ATTENDANCE

HON. JOHN M. WHITEHEAD SPOKE IN ABLE MANNER.

Event Took Place Yesterday Afternoon in the Town of Lima—Many From This City Were in Attendance—The Program Was a Most Interesting One.

One thousand people were in attendance yesterday afternoon at a flag-raising event held in the town of Lima in what is known as the Burdick district. An actual count of the teams placed the number at four hundred and forty-eight. Many farmers residing fifteen miles away attended.

The program, a most excellent one, was held in the open air prior to the raising of Old Glory. President Albert Salisbury of the Whitewater Normal school gave the address. At this same school where the flag was raised Prof. Salisbury was attending when the war broke out and leaving school he joined the Northern army. Yesterday he spoke in a most able manner.

Hon. John M. Whitehead of this city was on the program and the address that he delivered was a most masterly one consuming twenty five minutes time. At the close he was greeted by loud and prolonged applause.

Others who took part in the speaking were County School Superintendents Thrope and Ross.

The program was a lengthy one and proved most interesting. Refreshments were in order and the afternoon will long be remembered.

## MAX PFENNIG WAS FALTER'S AGENT

That is the Way Justice of the Peace Earle Has Found in the Case of Schumacher vs. Falter.

When Ferdinand and Elizabeth Schumacher paid over to Max Pfennig the sum of \$500 as payment in full of a mortgage held by John H. Falter of this city, they did no more than what was right, according to Justice Earle's decision. Mr. Falter claimed that he never received the money from Pfennig and that the Schumachers had no reason to pay the cash to Pfennig as he was not his authorized agent. The case finally got into court and has just been decided by Justice Earle. The court found from the evidence introduced that Pfennig was Falter's agent and as such had a right to carry out the transaction. The case has been appealed and there is no telling where it will end.

## LATE TELEGRAPHIC NEWS.

## BULLER AT LAST MOVES ON.

Outflanks Boers and Seizes Strong Position on a Hill.

## ATTACK WAS WELL PLANNED.

British Troops Carried Heights with Great Dash—Buller Says He Hopes He Has Obtained a Position from Which He Can Render Laing's Nek Untenable.

London, June 9.—Gen. Buller has at length taken the offensive and by maneuvering has secured a position west of Laing's Nek by which he believes he can make the Boer positions untenable. Presumably he will immediately follow up his success. The war office has received from him the following dispatch, dated at Yellow Boom Farm, June 8:

"On June 6 Gen. Talbot Coke, with the Tenth brigade and the South African light horse, seized Van Wyke hill. The enemy made some resistance and a good deal of sniping occurred. Our casualties were about four killed and thirteen wounded.

"During that day and the following we got two 4.7 and two 12-pounder naval guns onto Van Wyke hill and two 5-inch guns onto the southwestern spur of Inkewelo. Under cover of their fire Gen. Hildyard today assaulted all the spurs of the berg between Botha's pass and Inkewelo.

"The attack, which was well planned by Hildyard and carried out with immense dash by the troops, for whom no mountains were too steep, outflanked the enemy, who were forced to retire from their very strong position.

"I think we did not have any casualties, and I hope I have obtained a position from which I can render Laing's Nek untenable."

Lord Roberts has communicated nothing for three days nor permitted the correspondents to wire what is going on. London's inference is that he is resting, although he is possibly disposing his army for a reach after Commandant General Botha.

The Daily Express has the following from Pretoria, dated Wednesday: "The 1,000 prisoners who were deported from Waterval were told that they were about to be given up to Lord Roberts. They entrained cheerfully and were conveyed to Noot Gedache, instead of Pretoria. General Louis Botha, with a rear guard of 2,000, left Pretoria during the night. The British advance guard on entering was upon the very heels of the retreating Boers. Botha has sworn to carry on the war in the mountains."

A special dispatch from Pretoria says that the only shell which took effect in the town the day prior to the occupation of Pretoria hit the United States consulate. A dispatch from Cape Town announces that the work of organizing the government of the Transvaal is proceeding. A portion of Sir Alfred Milner's staff has gone to Pretoria to start the machinery, so the proclamation of the annexation of the Transvaal may be speedily effected.

**Diplomas for Naval Cadets.**  
Annapolis, Md., June 9.—Graduation week at the Naval Academy ended when sixty-one cadets received diplomas. The ball at night, an elaborate social function, completed the festivities. On Monday cadets will enter upon the summer voyage on the Chesapeake and Newport. They will return from the cruise the last of August.

**Nile Seems to Be Polluted.**  
London, June 9.—A dispatch to the Daily News from Cairo says that a strange phenomenon is reported from Assuan. Numbers of fish were seen swimming uneasily on the surface of the Nile, above the first cataract, and during the next few days thousands of them were found dead. The authorities are making an investigation, as disastrous results are possible if the river is found to be polluted.

**\$30,000 Is Sent to India.**  
New York, June 9.—The executive committee of the committee of one hundred on India famine relief reported at the chamber of commerce that contributions of nearly \$30,000 were made, although the committee was formed only a month ago. **Cleveland Not Interested.**  
Princeton, N. J., June 9.—When Grover Cleveland was asked what he thought of the recent letter of E. C. Benedict on the need of a new political party he replied: "Mr. Benedict has a perfect right to assert himself, and what he says has no bearing whatever on me. I do not know what Mr. Benedict really did say in his letter, because I am not bothering much about politics just now. There has been no time when I have given less attention to politics than I am doing now."

Mr. Cleveland was asked concerning the endorsement of W. J. Bryan by the New York Democratic state convention. He replied: "That has not interested me at all."

**Hisses for Hamlin Garland.**  
La Crosse, Wis., June 9.—During the speechmaking program at the La Crosse county old settlers' union at West Salem, Hamlin Garland, the author, novelist and lecturer, declared the Indians in the Black Hawk war entirely right and the whites entirely wrong. He said the name of Black Hawk should ever be revered and remembered. He was greeted by hisses from hundreds, who gave a tremendous demonstration of disapproval. Judge Brindley replied vigorously and was cheered for several minutes. Mr. Garland left in disgust.

**Pacific Cable to Mexico.**  
City of Mexico, June 9.—The Safety Insulated Wire Cable company is arranging to lay a cable to connect the mainland of Sonora through Guaymas with Santa Rosalia, on the eastern coast of Lower California. It will be the first Pacific cable to Mexico, 100 miles in length, and will cost \$250,000. The Gulf of California has an insatiable terebo navalis—that destroys ordinary cable coverings; hence it is necessary to lay a special cable of zinc composition with a gutta-percha covering.

**Capitol Is Now Silent.**  
Washington, June 9.—Washington is now one of the most deserted cities of the earth. It reminds one of a college town the day after commencement. Over the floors of the house and senate and committee-rooms are scattered papers and mail matter of every description in utter confusion, and preparations are making for the assault of the scrubwomen and rubbish scavengers on the halls where party strife so recently prevailed.

**Father and Son Quarrel.**  
New York, June 9.—Cornelius Feltows, president of the Horse Show Association of America, and one of the best-known men of this city, has cut off his son and heir, Cornelius Feltows, Jr., as the result of a quarrel. The son had been receiving an allowance from his father upon which he and his wife had been living. This allowance now ends.

**Holla Pleads for Peace.**  
Lorenzo Marquis, June 9.—United States Consul Holla, who returned here yesterday from the Transvaal by special train, had a two hours' interview in close conference with President Kruger at Machadodorp. ## Consigned Bonds to the Fire.

Cincinnati, Ohio, June 9.—W. D. Bender, the speculator and miner who died in the College Hill sanitarium a few days ago, destroyed \$43,000 worth of government bonds before his relatives could interfere. Bender became violently insane six months ago and search was made for the bonds he possessed. He learned of the search and threw the bonds into the fire. The property is lost because the bonds were not registered. However, he left \$12,000 in bonds untouched.

## Accused of Missing Mails.

Cleveland, Ohio, June 9.—On the charge of using the United States mails for fraudulent purposes, Martin H. Ross, a tinsmith, was arrested. It is said Ross issued a circular containing the photograph of a young woman, who, the circular said, was worth \$425,000 and was anxious to wed. The circular said that Ross had the power to arrange the marriage, as attorney for the young woman's guardian, and he asked a fee of \$25 for his services.

## Girls Turn on the Fire Hose.

Dayton, Ohio, June 9.—The juniors and seniors of the Dayton high school had a class rush which resulted in the arrest of six juniors, and they spent an hour in the station house. The trouble originated over a class stone erected by the seniors and later painted in the junior colors, white and blue. The junior girls turned the fire hose on the seniors just before the police arrived. Honors were about even.

Backache was the chief symptom and often caused me to suffer severely. I tried a number of remedies but continued to grow worse instead of better. I was finally persuaded to try Doan's Kidney Pills and procured a box at the Peoples' Drug Co's. store. I only took them a few days when I felt better. ## Shapely Married Women

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is very destructive to the mother's shapeliness. This can be avoided, however, by the use of MOTHER'S FRIEND before baby comes, as this scientific friend prepares the body for the strain upon it, and preserves the symmetry of form. MOTHER'S FRIEND also obviates all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is a woman's greatest blessing, and thousands gratefully tell of the great good it has done them. Sold by all druggists at \$1.00 per bottle. Our little book, telling all about this great remedy, will be sent free to any address by THE DRABFIELD REGULATOR COMPANY, Atlanta, Georgia.

## WINE OF CARDUI

**A SURE MEDICINE.**

HANDSON, VA., Dec. 31.

I have been suffering from female weakness for four years, and have taken many medicines, but Wine of Cardui and Back-Draught have done more for me than anything else.

MRS. CAROLINE EVANS.

**Wine of Cardui**

It is a mistake to take any and every kind of medicine when you are sick. There is danger in it. Most of the so-called cures for "female weakness" do nothing more than deaden the pain temporarily, and when the effect wears away the patient is weaker and sicker than before. It is never wise to take chances. You have only one life, and that is dear and precious. If you have any pain, ache, disorder or weakness in the feminine organs, nothing will help you like Wine of Cardui. It helps do away with morning sickness during the early stages of pregnancy, and modifies the pains of childbirth; recovery is rapid and future health is assured. The Wine is purely vegetable, being made of herbs whose medicinal properties act directly upon the organs of womanhood. It is a long-tried remedy, and has many years of success behind it. It is sure. Why take a chance medicine when you can get a sure medicine?

## OTIS SEES END OF THE WAR.

General Says Philippines Must Yield to Present Force.

## LAUDS AMERICAN SOLDIERS.

Trouble in China Is Regarded as Difficult to Settle—The Influence of Aguinaldo Is on the Wane—Believes the Report of Aguinaldo's Death False.

Chicago, June 8.—Maj.-Gen. Elwell S. Otis, former commander in chief of the United States forces in the Philippines, arrived in Chicago. During his stay of two hours in the city he gave it as his opinion that the situation in the Philippines required no additional soldiers to quell the rebellion.

"I do not believe," said the general, "that Aguinaldo has been killed. He is far too clever to be caught in close proximity to the firing line, and has been hiding in the mountains for the last year. He has been deserted by his cabinet and the best of his military staff and is followed now by a few fast friends who would be unable to render any material assistance in case of emergency.

"His influence has waned. The majority of the natives want peace and are confident of the ability of the United States to rule them. Not another soldier is needed in the Philippines, although it would require fully 250,000 men to cover each post and city. Our troops are stationed where the Spanish forces never dared to enter. I am convinced that the American soldiers can stand the climate as well or better than the natives.

"Our entire sick list is not 10 per cent, including wounded, and that is certainly a very good showing among such a large number of men. The American soldier is the ideal fighter of the world, and we have awakened the powers of Europe by our display of arms. There has been a certain amount of gambling, which is expected in all armies, but the same complaints might be expected were we engaged in warfare on the plains of Arizona.

"The Chinese trouble has arisen since my departure from the Philippines, but I believe that it is a serious question and will cause the great powers trouble before it is settled. My opinion in this matter, however, must be communicated first to my superiors in Washington.

## More Trouble for Chrisman.

Emporia, Kan., June 9.—Prof. Oscar Chrisman, who declared before the national mothers' congress at Des Moines in May that "man never loves; what in man is sometimes designated as love is only sex-feeling," came within an ace of losing his position as a result of his Des Moines paper. Three of the regents of the Kansas State Normal, in which Prof. Chrisman occupies a chair, held that, entertaining such views on love, Prof. Chrisman was not a fit instructor. On a motion to dismiss him, however, the vote was a tie, three to three. As Prof. Chrisman has already been employed for another year, the tie vote saved him his place.

## Explosion at Powder Mill.

Brazil, Ind., June 9.—An explosion occurred at the Indiana powder plant, near Fontanet, killing Matthew Reed, and injuring several other employees. It is believed Reed dropped a half-bucket of nitroglycerin which he was carrying. He was whirled through the air seventy-five yards. The clothing was torn from his body and he was horribly mutilated. The explosion wrecked the mixer mill, in which were girls employed packing cartridges. In their wild endeavor to escape many of the girls were injured, but none seriously. One man, Edwards is missing.

## Demand for Harvest Hands.

Kansas City, Mo., June 9.—The railroads have opened an employment bureau here and will endeavor to furnish men for the big wheat harvest in the southwest. Station agents throughout the wheat belt have received instructions to "book orders from farmers for men needed. These orders will be telegraphed to the Kansas City bureau, and in this way it is hoped to send the men where they are needed, and to avoid a congestion of unemployed men at the larger western towns.

## Silks Will Be High.

New York, June 9.—Silk manufacturers in this city are determined to maintain the present schedule of prices with the utmost strictness, owing to the troubles in China and the existing shortage of from 25 to 33 per cent in the crop of raw silk. Further advances are expected in the early autumn, in case the arrivals of the first new crop of China raw silks in August indicate that preliminary reports of the condition of the field are found to have been correct.

## Miss Gould in Mammoth Cave.

Richmond, Ky., June 9.—Miss Helen Gould and party arrived here from Berea. They were met at the depot by Miss Lucia Burnam and Senator Burnam in carriages and driven through the city to "Burnamwood," where they had luncheon. The party left for Mammoth cave.

## Wheat Cut Down by a Freeze.

Minneapolis, N. D., June 9.—A hard freeze formed a quarter of an inch of ice. Much wheat was cut back to the ground. The damage is hard to estimate, but the crop cannot exceed one-half the ordinary yield.

## FOUND REBEL ARCHIVES.

Funston's Discovery of Aguinaldo's Papers in a Big Cache.

Vancouver, B. C., June 9.—A copy of the Manila Times received by the Idzuma Maru tells of an important discovery of insurgent documents and other articles which had been hidden by the Filipinos. It says:

"May 2 Gen. Funston was making a personal reconnaissance with eighteen troops in the direction of Bongabon and Pantabangan, up the Rio Grande de Pampanga, when he discovered a perpendicular ladder leading up a cliff crowned with a dense forest. Beside the ladder hung a rope, which, when pulled up, rang an alarm bell in the woods back of the precipice. The general and his men ascended the ladder and found thirty or forty large wooden cases crammed full of state documents, comprising most of the archives of the rebel government. There were other things saved from the wreck of Malolos, about 1,000 Hotchkiss shells, a quantity of dynamite, a stock of bombs and much other ammunition, 200 pounds of black gunpowder, office furniture from the Malolos Audiencia, carpets, chairs, tables and a lot of miscellaneous goods of no special importance."

## Flank Attack by the Mayas.

Oaxaca, Mex., June 9.—Gen. Bravo's large force of government troops has met with unexpected opposition in its march on Chan Santa Cruz, the principal city of the Maya Indians, in the state of Yucatan. The troops were within a few miles of the rebels' stronghold, and an easy occupation of the place seemed at hand, when a force of several thousand Indians made a flank attack on the advancing column of their enemy and drove them back several miles. It is evident that the Indians are prepared to make a desperate stand at Chan Santa Cruz. The town is surrounded with intrenchments and defenses, which are constructed on a military plan of high order.

## Guatemala in Need of Money.

San Francisco, Cal., June 9.—A letter from a trustworthy source received on the steamer City of Para, from Guatemala, says: "The government is in a very unsatisfactory condition financially. The president some time ago issued a proclamation of amnesty to all absentees who are unfavorable to his administration, but no good result has come of this, and over 1,000 prominent men have left the country until matters are adjusted. The government has issued \$5,000,000 or \$5,000,000 paper money on which exchange is at this writing 750 per cent. There is practically no money in circulation."

## Moffat Knocks Out Neill.

San Francisco, Cal., June 9.—Jack Moffat of Chicago disposed of Al Neill, the hitherto unbeatable California middleweight, in the eleventh round. He did the trick with a right swing on the chin that made Neill see stars and from which he failed to recover for some seconds after the fatal ten were counted.

## Collapse Is Coming.

soon or late, when the stomach and digestive and nutritive system begin to fail. It must be so. Food is the body's life. But food must be digested, before it can nourish the body. It is not what we eat but what we digest that feeds us. Don't neglect the first warnings of stomach trouble. The timely use of Dr. Pierce's Golden Medical Discovery, which is a medicine for the cure of diseases of the stomach and organs of digestion and nutrition will in ninety-eight cases out of a hundred result in a permanent cure. The percentage of cures is based on actual figures and facts, recorded in the treatment of hundreds of thousands of sick people. The "Discovery" always helps. It almost always cures.

## Coal Partition Completed.

Philadelphia, Pa., June 9.—The Pennsylvania railroad has secured control of the Philadelphia & Reading railroad. This completes the partition of the anthracite coal territory between the New York Central and Pennsylvania systems and places the coal business of the east in the hands of a practical trust.

## Robs a Postoffice of \$4,000.

New Orleans, La., June 9.—There is no clew to the robber who at the post-office stole \$4,000 in bills from a pile of money lying just inside one of the windows opening on the counter of the money-order department. Postmaster Pitkin thinks the money was stolen by some one who reached in through the window.

in water 24 hours before cooking. By this process the fruit becomes tender and juicy, and the cooking completes the rehydration. Boiled apricots, figs, dates and apples are made especially palatable by the addition of a little vanilla extract just before setting aside to cool.

TOMATO SAUCE.—If canned tomatoes are used, add one cup of water to the can; boil five minutes. Meanwhile, brown one onion in two tablespoonsful of butter, add one tablespoonful of flour, making a smooth paste, and put it in the tomatoes. Boil the whole two minutes and strain. Tomatoes should never stand long after cooking. Fresh tomatoes require ten minutes to boil.

**She Followed Her Doctor's Advice**

Mrs. G. W. Palmer, of Jonesville, Vt., says:

"Two years ago I was afflicted with stomach and bowel trouble. My case puzzled the doctors. I subsisted only on the lightest kind of diet. My stomach would not retain solid food. The pain in my stomach and bowels was so intense that I cannot describe it. I continued to grow worse. I lost 48 pounds, my nerves were completely shattered, and I was very weak. Dr. C. W. Jacobs, of Richmond, advised me to take Dr. Williams' Pink Pills for Pale People. I began to use the pills, and the first effect was the restoration of my appetite, and the quieting of my shattered nervous system. I began to regain my lost strength, and in one month after commencing to take the pills I was able to do my housework. I have gained 30 pounds and to-day am in good health."—From the Free Press, Burlington, Vt.

Dr. Williams' Pink Pills for Pale People contain in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sallow complexion, and all forms of weakness either in male or female.

Dr. Williams' Pink Pills for Pale People are never sold by the dozen or hundred, but always in packages. At all druggists, or direct from the Dr. Williams Medicine Company, Schenectady, N. Y., 60 cents per box, 6 boxes \$2.50.
